

**REMARKS/ARGUMENTS**

Responsive to the requirement for restriction as set out in the Official Action of June 5, 2008, applicants elect the subject matter of Group III, namely claims 1-21 drawn to methods of treating cancer.

Claims 1-9 and 13-14 originally filed in "use" form, have been revised and directed to methods of treating cancer. As a consequence claims 10-12 and 15-17 have been canceled as either being non-statutory or redundant.

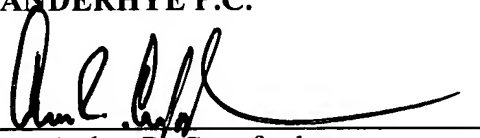

Responsive to the election of species requirement in item 3 of the Official Action, applicants elect the species of claim 21.

Please examine these claims on the merits taking into account the International Search Report issued on the corresponding PCT application as presented in the Information Disclosure Statement filed April 21, 2006. Should the examiner require any further information, please contact the undersigned.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
